Beyond Oil expands into Sweden with 5-year distribution agreement

10 February 2025 | News

Strategic partnership with click Lab AB set to bring sustainable frying solutions to Swedish restaurants

Strategic partnership with click Lab AB set to bring sustainable frying solutions to Swedish restaurants

Beyond Oil Ltd. a food-tech innovation company dedicated to reducing health risks associated with fried food while lowering operational costs, minimising waste and enhancing sustainability, announced a distribution agreement with Click Lab AB, for the distribution of Beyond Oilâ??s oil filtration product in Sweden.

Under the terms of the Distribution Agreement, which became effective on January 24, 2025, Click Lab AB will serve as the distributor of Beyond Oilâ??s proprietary oil treatment products for non-chain restaurants and local chains that do not utilize filter machines across Sweden. The partnership is expected to help restaurants extend oil life, improve food quality, and reduce waste, aligning with the global push for more sustainable practices in the food service industry.

Jonathan Or, CEO of Beyond Oil Commented: â??Expanding into Sweden marks an important step in our global growth strategy. This partnership with Click Lab AB allows us to introduce our innovative oil treatment solution to a market that values sustainability and innovation. With Click Labâ??s expertise and established distribution network, we are confident in the success of this rollout.â?•
