

Vietnam Dairy Products ramps up R&D efforts

24 August 2021 | News | By BioSpectrum Bureau

Have developed customized products tailored to the Asian, African and Middle East markets

The Vietnam Dairy Products JSC (Vinamilk) is accelerating R&D efforts to create innovative products enriched with local flavours to satisfy global customers' diverse tastes.

With its strategic investment in product development, international expansion, and commitment to sustainability, Vinamilk has become the only Vietnamese dairy company in the Top 50 global dairy producers in 2021, ranked 36th.

Looking forward, Vinamilk aims further its global reach to serve more international markets. The company has announced a joint venture with Del Monte - a leading producer and distributor of F&B products in Philippines.

Vinamilk has three factories in the US, New Zealand, and Cambodia and a dairy farm complex in Laos. The first constructional phase of the farm complex which has a capacity of 8,000 cow heads that produces approximately 44,000 tons of milk each year, is expected to be put into operation in the 1st quarter of 2022.
