

Nutreco Feed & Food Tech Challenge now open for startup

09 March 2022 | News

Nutreco is looking for startups and other pioneers with innovative and disruptive ideas to produce more food with fewer resources. Candidates can now apply to 2022 Nutreco Feed & Food Tech Challenge (NFFTC).

The challenge focuses on breakthrough innovations within livestock farming, aquaculture and alternative food proteins.

Nutreco is looking for startups and other pioneers with innovative and disruptive ideas to produce more food with fewer resources. Candidates can now apply to 2022 Nutreco Feed & Food Tech Challenge (NFFTC).

Details for submitting ideas

Start-ups across the globe are invited to submit their applications. The challenge focuses on breakthrough innovations within livestock farming, aquaculture and alternative food proteins. The winning start-up receives a scientific validation trial at one of Nutreco's research centers.

Nutreco experts will select 15 teams to receive coaching by industry experts and to pitch virtually to the jury in June. The jury will consist of Nutreco and industry experts. The top five teams will then be invited to an in-person event in the Netherlands later in the year.

Applications need to be sent by April 25 at 12:00 CET. Requirements for the pitch deck can be found on the Nutreco website: [Nutreco 2022 Feed & Food Tech Challenge](#)
