

abillion announces the World's 10 Best Vegan Cheese Awards 2022, rated by consumers on the abillion app

26 September 2022 | News

The company's awards are based on more than 2 million consumer reviews of vegan products on the abillion app.

The company's awards are based on more than 2 million consumer reviews of vegan products on the abillion app.

abillion, the global consumer review platform focused on sustainability, has released the World's 10 Best Vegan Cheese Awards 2022. The 10 winners were determined by evaluating consumer reviews of 3,967 vegan cheese products from abillion members in 80 countries, posted in 2021-2022.

abillion found that consumption of vegan cheese products was highest amongst consumers in Argentina, Brazil, Canada, Germany, Italy, Mexico, Spain, Switzerland, the United Kingdom, and the United States.

Davide Scolaro and Francesca Cardamone started il CashewFicio driven by ethical and healthy choices. The company's flagship Muffervert product is an artisanal vegan cheese made from fermented cashew nuts. All the products from il CashewFicio are free of animals and animal byproducts and rich in probiotics and minerals. "This cheese deserves five stars. It's extraordinary: the texture, the strong flavor and the flowery crust remind me of Brie or Camembert, but it is made from cashews!" says [astrolala](#), abillion member.

The World's 10 Best Vegan Cheese 2022:

1. [Muffervert](#) (il CashewFicio, Italy)
2. [Jeanne Le Bleut](#) (Jay & Joy, France)

8. [Gratt](#) (Io Veg, Italy)
9. [Greek White](#) (Violife, Greece)
10. [Camembert](#) (Augusta, Argentina)

"In trying to figure out a truly melty cheese for pizza and other baked applications, we just turned the problem on its head and decided to take a unique approach. We weren't sure if the cheese in a bottle would resonate with consumers or if there would be too sharp a "learning curve," but as usual, consumers showed us how smart they are. We are delighted to help solve the

"pizza problem" with a great vegan solution," says Founder and CEO Miyoko Schinner.

"It's brilliant to witness the rising demand for sustainable products from consumers around the world. Our awards, created from millions of consumer reviews on the abillion app, celebrate the diversity of companies globally that are creating amazing vegan products that are winning the hearts of consumers. Congratulations to all of the winners!" says Vikas Garg, founder and CEO of abillion.

The abillion app helps people discover, shop and review 844,000 sustainable options from 98,000 consumer products companies and 101,000 restaurants globally.
