

Blue Diamond Growers introduces honey butter-flavoured almonds

31 July 2023 | News

The Honey Butter Flavored Almonds will be available at Walmart, the Blue Diamond Nut & Gift Shops, and at online stores for the next six months

The Honey Butter Flavored Almonds will be available at Walmart, the Blue Diamond Nut & Gift Shops, and at online stores for the next six months

Blue Diamond Growers is introducing a new limited-time flavour to replace the 6-ounce can of Chili Lime. The Honey Butter Flavored Almonds will be available at Walmart, the Blue Diamond Nut & Gift Shops, and at online stores for the next six months. These snack almonds are inspired by the popular Korean Honey Butter Chips and offer a smooth blend of honey and buttery flavour.

"We never stop innovating at Blue Diamond," said Maya Erwin, Vice President of Innovation and R&D, at Blue Diamond Growers. "Honey Butter Almonds were proudly developed by Blue Diamond's R&D scientists to create the perfect flavour balance. Our goal is to ensure that our consumers never have to search outside our products to find every flavour category they crave. These snack almonds satisfy the sweet and salty flavour blend beloved by so many but be sure to try them before they're swapped out for another exciting flavour!"

Honey Butter Almonds are available in the iconic 6-ounce can until December 2023 and are an excellent choice for on-the-go snackers who prefer better-for-you options. Honey Butter Almonds are high in antioxidant Vitamin E, have 5g protein per serving, and are ketogenic and kosher certified. Be sure to try them before they are swapped out for another exciting flavour.
