The new Hokkaido Cheese Edition introduces Hokkaido cheese as a new variant pairing in the brand's menu

Pizza Hut Indonesia, the country's pizza pioneer, launched its latest innovative menu, the Hokkaido Cheese Edition. Underscoring Pizza Hut Indonesia's commitment to bringing differentiated dining experiences to pizza lovers across Indonesia, the new Hokkaido Cheese Edition introduces Hokkaido cheese as a new variant pairing in the brand's menu.

The star of the new menu is the Chicken Nanban Pizza topping, featuring succulent chicken karage with nanban and tartar sauce on Pizza Hut Indonesia's iconic Hokkaido cheese-filled crust topped with parmesan cheese. These bite-sized morsels of cheese add a burst of rich creaminess with every mouthful, meticulously crafted to elevate your pizza indulgence. "We are excited to present the Hokkaido Cheese Edition, tapping into the growing trend of culinary consumers' love for Hokkaido cheese. The relentless pursuit of culinary innovation is at the heart of Pizza Hut Indonesia and the Hokkaido Cheese Edition is a testament to our commitment to innovation and meeting the evolving tastes of our customers. The infusion of Hokkaido parmesan cheese in our crusts adds a creamy and luxurious dimension to our pizzas, setting us apart as pioneers in the industry as well as our way of leading the charge. The crispness and cheese-filled softness provide the perfect complement to the juicy chicken Nanban topping, for a pizza experience like no other," said Boy Lukito, Director of Operations of Pizza Hut Indonesia.

In addition to the Chicken Nanban Pizza, Pizza Hut Indonesia's Hokkaido Cheese Edition includes a range of Melts Cheese Overload with Hokkaido Cheese, Chicken Nanban Donburi, and special combo deals Comboishii for customers to enjoy the creamy and smooth Hokkaido parmesan cheese across menu categories. Special combo deals bundle customers' favourite toppings (Meat Lovers or Super Supreme) with the cheesy Hokkaido Parmesan Crust to create customized flavour pairings.
