Seedlip Notas de Agave has a bright and bursting blend of zesty lime and prickly pear that are complemented by agave flavours

Seedlip, the number one selling non-alcohol spirits brand in the U.S. (IWSR), unveils Seedlip Notas de Agave - a premium, new expression which is elegantly crafted to awaken the palate with vibrant and warm tasting notes. As the brand's latest innovation, Notas de Agave provides another choice within the Seedlip portfolio as the low and no-alcohol trend continues to gather pace and non-alcoholic spirits have become one of the fastest-growing categories within the low and no-alcohol space.

Seedlip Notas de Agave has a bright and bursting blend of zesty lime and prickly pear that are complemented by agave flavours. The aromas of Seedlip Notas de Agave are herbal and fruity with vanilla and citrus notes. The slight heat finish is

from the flavour of peppercorns. All of these tasting notes are accentuated when Seedlip Notas de Agave is mixed with soda and a splash of lime for a beautifully flavoured and low-calorie Ranch Water style serve, or used as the base of a Margarita or Paloma style cocktail.
