The farmer-owned dairy co-op produces the #1 fastest-growing scoopable ice cream brand in the United States

The farmer-owned dairy co-op produces the #1 fastest-growing scoopable ice cream brand in the United States

Tillamook County Creamery Association (TCCA) is embarking on an Australian adventure, bringing its premium, really creamy ice cream to Australia for an exclusive partnership with Woolworths. Available in 457ml packages – perfect for special "me" moments – the eight exquisite flavours now available in Australia are: Chocolate Mudslide, Chocolate Peanut Butter, Coffee Almond Fudge, Dark Cherry, Mint Chocolate Chip, Sea Salt & Honeycomb Toffee, Seriously Strawberry and Vanilla Bean.

Known for delivering quality that's better than it has to be across the co-op's full line of dairy products, Tillamook Ice Cream is no exception. Seriously Strawberry offers a smooth, creamy texture and real, ripe strawberry pieces, while the Sea Salt & Honeycomb Toffee is the epitome of sweet & salty perfection. Even the Vanilla Bean makes taste buds sing with real crushed vanilla bean seeds with a rich vanilla base. Every flavour offers pint-sized perfection, perfectly sized for you.

Australia is home to many ice cream enthusiasts. As one of the highest per capita consumers of ice cream in the world, the country is a natural next step for Tillamook as the 115-year-old company continues a trajectory of rapid growth. Known for making products with only the highest-quality ingredients and no shortcuts since 1909, Tillamook Ice Cream tastes better because it's simply made better. Every flavour of Tillamook Ice Cream is meticulously crafted using high-quality milk, cream, and cage-free eggs, and includes no artificial flavours or sweeteners. It's no wonder that today, Tillamook is the fastest-growing scoopable ice cream brand in the United States.
