Euroingredientes represents a portfolio of around 30 suppliers and offers a great opportunity for DKSH to further expand its life science business in Europe

Euroingredientes represents a portfolio of around 30 suppliers and offers a great opportunity for DKSH to further expand its life science business in Europe

Through the acquisition of Euroingredientes, DKSH Performance Materials secures a well-established business with more than 20 years of experience as a reliable supplier, offering a unique product portfolio of food ingredients and nutraceuticals in Portugal.

Euroingredientes was established in 2001 with a focus on supplying certified high-quality ingredients to various areas of the food industry such as dairy products, beverages, as well as bread and bakery. Euroingredientes represents a portfolio of around 30 suppliers and offers a great opportunity for DKSH to further expand its life science business in Europe.

DKSH acquires the assets of the business and will integrate them into its existing operations.

Isabel Viegas, CEO at Euroingredientes, mentioned: “Through continuous improvement and a dedicated focus on our suppliers, Euroingredientes has been able to build exceptionally strong supplier relationships over the past 20 years. By joining forces with DKSH, we can further strengthen our position and expand our presence in the growing life science industries.”

Thomas Sul and Natale Capri, Co-Heads Business Unit Performance Materials at DKSH, jointly commented: “We are very happy to acquire Euroingredientes, which offers a wide range of raw materials to all areas of the food industry with strong growth prospects in Portugal. We extend a warm welcome to the team at Euroingredientes and are excited about continuing to grow the business in Europe together.”

The closing of the transaction is expected during the third quarter of 2024 and is subject to customary closing conditions.
