The new column beverage centres introduce a landmark category of column refrigeration for Perlick

Perlick unveils its latest innovation in beverage storage: their newÂ Column Beverage CentresÂ andÂ Wine Columns! Expanding on the success of Perlick's Signatures Series Beverage Centres and Wine Reserves, these new models offer more versatile designs for superior beverage storage and display. Designed to enhance both commercial and residential spaces, these new columns combine elegant display with increased capacity, representing the next evolution in Perlick's commitment to innovation.

The new Column Beverage Centres introduce a landmark category of column refrigeration for Perlick, providing versatile refrigerated storage for everything from canned and bottled beverages to perfectly preserved wines -- all within a single unit. With robust, all-stainless-steel flat and dedicated wine shelves that are adjustable to suit varying storage needs, and a full-extension floor bin for easy access to contents, these centres are designed for maximum convenience. The Column Beverage Centres are available in both 24" and 30" sizes and come in single and dual zone options, accommodating up to 422 twelve-ounce cans or 55 750ml bottles and 230 twelve-ounce cans, respectively.
