

Econo-Pak announces co-packing facility expansion

04 December 2024 | News

This investment reflects Econo Pak's ongoing commitment to providing clients with flexible, scalable solutions in the rapidly evolving food packaging industry

This investment reflects Econo Pak's ongoing commitment to providing clients with flexible, scalable solutions in the rapidly evolving food packaging industry

Econo-Pak, a leading contract food packaging and manufacturing company announced a transformative expansion of its Milford, Pennsylvania facility. The project includes a 125,000-square-foot addition to the existing 200,000-square-foot facility, representing a major milestone in the company's growth. This expansion will enable Econo-Pak to increase its capacity, support new projects, and meet the growing demand for high-volume contract food packaging services.

This investment reflects Econo-Pak's ongoing commitment to providing clients with flexible, scalable solutions in the rapidly evolving food packaging industry. The additional space will house food packaging automation, upgraded production lines, and expanded storage capacity, ensuring faster turnaround times and even greater efficiency for clients.

Since its founding in 1981, Econo-Pak has been a trusted turnkey partner for high-volume dry food co-packing, re-packing, and co-manufacturing services. Family-owned and operated, the company takes pride in delivering tailored solutions to medium- and large-sized food businesses. Econo-Pak holds critical certifications—including SQF Level 3, FDA, USDA Organic, Kosher, and Gluten-Free—demonstrating a steadfast commitment to quality, food safety, and operational excellence.
