JAS Worldwide signs SPA with International Airfreight Associates B.V.Â

24 December 2024 | News

This acquisition aligns with our strategic goals and enhances our ability to provide comprehensive logistics solutions

This acquisition aligns with our strategic goals and enhances our ability to provide comprehensive logistics solutions

JAS Worldwide, a global leader in logistics and supply chain solutions, and International Airfreight Associates (IAA) B.V., a prominent provider of comprehensive Air and Ocean freight services headquartered in the Netherlands, are proud to announce the signing of a Share Purchase Agreement (SPA). This agreement marks an important step toward JAS Worldwide's acquisition of IAA which, pending regulatory approval, is expected to be completed in the first quarter of 2025.

"This acquisition aligns with our strategic goals and enhances our ability to provide comprehensive logistics solutions to our clients. We eagerly await the finalisation of this deal and look forward to welcoming IAA's talented air and ocean team into the JAS family," said Marco Rebuffi, CEO of JAS Worldwide.

"In JAS Worldwide we have found the right party to realise our growth ambitions and guarantee a pleasant working environment for our employees. By joining forces, we can also offer an even broader service to our current customers. We therefore look to the future with confidence" said Jur de Graaf, Managing Director of International Airfreight Associates.

IAA handles multi-modal general cargo and specializes in the transportation of perishable goods, with headquarters in The Netherlands and an operation in Germany. This acquisition will strengthen JAS's presence in key markets and increase its expertise in managing time-sensitive perishable shipments.
