Sourced from the high-altitude Phoenix Mountain in Chaozhou, Guangdong, this tea represents the perfect fusion of tradition, craftsmanship, and natural flavour

Sourced from the high-altitude Phoenix Mountain in Chaozhou, Guangdong, this tea represents the perfect fusion of tradition, craftsmanship, and natural flavour

Dofo Tea announced the launch of its premium Phoenix Dancong tea, a rare and exquisite tea variety that captures the essence of China's rich tea heritage. Sourced from the high-altitude Phoenix Mountain in Chaozhou, Guangdong, this tea represents the perfect fusion of tradition, craftsmanship, and natural flavour.

Known as the "noble of tea" and celebrated for its aromatic complexity, Phoenix Dancong tea has been a hallmark of Chinese tea culture for centuries. With this launch, Dofo Tea invites tea enthusiasts worldwide to experience the unparalleled charm of this ancient tea variety at Dofo Tea.

Dofo Tea's signature Phoenix Dancong tea is grown at 1,400 meters on Phoenix Mountain in Chaozhou, preserving centuries-old natural flavours. Celebrated since the late Southern Song Dynasty for its rich aroma and unique taste, each handpicked leaf is processed using time-honoured methods that reflect a blend of family legacy and artisanal craftsmanship.

In 2024, a landmark studyâ??"Phoenix Tea: A New Species of Guangdong Tea Plants," published in China Tea (Vol. 46, Issue 12, 2024)â??confirmed, after extensive research on Phoenix Mountain, that Phoenix Dancong tea is an independent new species.

Today, Dofo Tea's website not only offers these premium teas for purchase but also provides in-depth insights into their history and flavour, catering to the diverse palates of tea enthusiasts.
