This marks a significant milestone in the brand's expansion

This marks a significant milestone in the brand's expansion

Toko Kopi Tuku (TUKU), a local coffee brand in Indonesia, announced the opening of its 61st store, TUKU Ambon, in Bandung, also known as the City of Flowers. This marks a significant milestone in the brand's expansion, which celebrates a decade of success and its continued commitment to being a positive presence in communities across Indonesia.

With a strong dedication to celebrating Indonesian culture and fostering the spirit of togetherness, TUKU Ambon is envisioned as a community hub—a place where people from all walks of life can come together, share stories, and enjoy TUKU's signature products and services.

“We’ve always aimed to be more than just a coffee place. From the very beginning, TUKU has strived to be an integral part of daily life. With Toserbaku, we go beyond offering coffee, providing high-quality merchandise for the everyday needs of our customers,” said Andanu Prasetyo, CEO & Founder of TUKU. “Bandung, with its vibrant creativity and community spirit, is the perfect place for us to continue this journey. We aim to create a meaningful space where TUKU products and services can be enjoyed in a familiar and comfortable setting.”

Designed in collaboration with Dendy Darman, a Bandung-based designer and long-time TUKU loyal customer (affectionately called Tetangga TUKU), TUKU Ambon stands out as the first store to feature a design that combines the comfort of traditional Bandung homes with a modern minimalist touch. The warm, natural feel of wood elements reflects Indonesian architecture, while the use of recycled materials and concrete from waste products contributes to the brand's commitment to sustainability.

The store aims to create a simple yet inviting atmosphere, encouraging community engagement while aligning with TUKU's values of creativity, comfort, and sustainability. As TUKU expands its presence in the region, it continues to set a benchmark for how local businesses can impact and support the communities they serve.
