Careem has unveiled a new feature on its platform aimed at transforming the solo dining experience: Meals: ON. Now live in Abu Dhabi via Careem Food, Meals: ON offers a curated selection of high-quality solo meals from top local restaurants.

Designed for convenience, value, and simplicity, Meals: ON eliminates the overwhelming decision-making process often associated with food delivery. Whether you're working through lunch, juggling meetings, or simply looking for a satisfying solo meal, this new feature promises quick choices without the hefty price tag.

The launch takes inspiration from Munch: On, the solo-meal platform Careem acquired in 2022. Meals:ON continues that mission, bringing affordable, tasty options to the city's busy solo diners.

As an added perk, Careem Plus members receive free delivery on all Meals: ON orders, with no minimum spend, making it easier than ever to enjoy a meal-for-one without the extra cost. Careem Plus also provides members with a suite of benefits across its services, including exclusive food and grocery discounts, up to 50 per cent off dining with Careem DineOut, cashback on rides, and reduced rates on international money transfers through Careem Pay.

The service is currently available in Abu Dhabi, with Dubai set to follow soon.
