Refresco operates with 75 manufacturing facilities across Europe, North America, and Australia

Refresco operates with 75 manufacturing facilities across Europe, North America, and Australia

Refresco, the global independent beverage solutions provider, announces it has agreed to acquire Telemark Kildevann Holding AS (TKV), a leading Norwegian beverage manufacturer. This transaction is subject to regulatory approval.

TKV is a family-owned manufacturer of soft drinks and bottled water, with two production facilities located in Fyresdal and Aurskog, Norway. The company maintains deep-rooted relationships with retailers and branded customers in Norway and Sweden, ensuring consistent, high-quality service and collaboration.

Refresco operates with 75 manufacturing facilities across Europe, North America, and Australia. With the acquisition of TKV, Refresco further strengthens its presence and operational capabilities to service customers across the Nordics, building on its existing footprint in Finland.

Hans Roelofs, CEO of Refresco, commented, "The acquisition of TKV marks another milestone in the execution of our proven Buy & Build strategy, further reinforcing our presence in Europe. TKV's loyal customer base, strong capabilities, and well-established market position enhance our ability to serve retailers and branded customers in Norway, Sweden and beyond. I look forward to welcoming over 60 employees to the Refresco team and further growing the business together."
