The acquisition marks another milestone for Refresco as it continues to expand its footprint

Refresco, the global independent beverage solutions provider, announced that it has completed the acquisition of Telemark Kildevann Holding AS (TKV), a leading Norwegian beverage manufacturer.

The transaction, which was previously announced on May 30, 2025, has now closed following customary regulatory approvals and completion conditions.

The acquisition marks another milestone for Refresco as it continues to expand its footprint. With facilities in Fyresdal and Aurskog, Norway, TKV is well-known for its production of soft drinks and high-quality spring and mineral waters, supplying both retail and branded customers in Norway and Sweden.

Hans Roelofs, CEO of Refresco, commented: “We are pleased to welcome our new colleagues from Telemark Kildevann to Refresco. This acquisition is another step forward in our Buy & Build strategy and underlines our commitment to further complement our existing operations across Europe. We look forward to working with the team and continuing to deliver high-quality beverage solutions to customers.”

Following completion of the acquisition, TKV will now be fully integrated into Refresco’s operational platform.
