

Javvy Coffee expands protein line with new protein creamer flavours

30 December 2025 | News

The Protein Creamer delivers a smooth, creamy texture with added wellness benefits, including sustained energy, brain support, and a collagen and protein boost

The Protein Creamer delivers a smooth, creamy texture with added wellness benefits, including sustained energy, brain support, and a collagen and protein boost

Javvy Coffee, a leader in better-for-you coffee that's convenient, functional, and delicious, is expanding its Protein Coffee lineup with the launch of its newest innovation: Javvy Protein Creamer. With over one million happy customers, a viral social media presence, and retail launches at Target, Sprouts Farmers Market, and others, Javvy Coffee continues to redefine the future of clean, functional coffee.

Crafted to effortlessly upgrade any cup of coffee, the Protein Creamer delivers a smooth, creamy texture with added wellness benefits, including sustained energy, brain support, and a collagen and protein boost.

Following the success of its original Sweet Cream flavour, Javvy Coffee Protein Creamer is now available in three new flavours: White Chocolate Mocha, Hazelnut, and Salted Caramel, each priced at \$29.95.

Product Highlights:

11g Protein Per Scoop: Supports healthier hair, skin, nails, joints, and bones while helping keep you nourished throughout the day

0g Sugar & No Artificial Sweeteners: Made with NO sugar additives, artificial ingredients, sweeteners, artificial colours, or chemicals

Prebiotics & Energy-Boosting MCTs: Supports gut health and cognitive function

Lactose-Free

Customers love Javvy Protein Creamer for its versatility in their everyday routine â?? using it in coffee, dirty sodas, smoothies and yoghurt bowls, and even baked goods. It's easy to enjoy in just three simple steps: add 1-2 scoops to water or milk, shake or froth, and enjoy an extra-creamy protein boost anytime.
