Botanic Healthcare Pvt. Ltd., a Hyderabad-based global manufacturer of science-backed botanical and nutraceutical ingredients, has announced the appointment of three Independent Directors to its Board: Sanjeev Kumar Jain, Chandrika Sridhar, and Sanjeev Krishan.

The appointments mark an important step in the company's growth journey as it scales its businesses, strengthens its corporate governance framework and builds the institutional capabilities required to support its long-term growth ambitions.

Gaurav Soni and Madhu Krishnamani, Founders and Managing Directors of Botanic Healthcare, said: "Building a globally competitive organisation requires more than business growth. It requires strong governance, experienced leadership and the right institutional foundations. These appointments reflect our commitment to building a robust organisation that is well-positioned for its next phase of growth. We welcome the new Independent Directors and look forward to benefiting from their experience and perspectives."

Kamalakar Arcot, Global CEO of Botanic Healthcare, said: "As we continue to expand our business and strengthen our presence across international markets, having experienced independent voices at the Board level becomes increasingly important. The collective experience of our new Directors across financial governance, pharmaceutical leadership and business transformation will bring valuable perspectives to our strategic priorities and long-term direction."

Narahari Naidu, Global CFO of Botanic Healthcare, added: " As Botanic Healthcare enters its next phase of strategic scale-up and institutionalization, a strengthened Board will bring greater strategic depth, diverse perspectives that challenge our thinking, and stronger oversight to our decision-making, reinforcing the governance and institutional discipline required for sustainable global growth."
