Eatigo receives follow-on funding from TripAdvisor

17 July 2018 | News

Bangkok and India-based online restaurant reservation platform Eatigo has raised a follow-on funding as part of its pre-Series C round from existing investor TripAdvisor. This brings its total raise across all its investors to date to over $25 million.

This brings its total raise across all its investors to date to over $25 million.

Bangkok and India-based online restaurant reservation platform Eatigo has raised a follow-on funding as part of its pre-Series C round from existing investor TripAdvisor. This brings its total raise across all its investors to date to over $25 million.

The pre-series C funding for Eatigo comes as TripAdvisor’s restaurants business unit and its subsidiary, TheFork, look to help expand Eatigo’s presence and services across the Asia Pacific region.

Eatigo, after its successful entry into Hong Kong, the Philippines, Malaysia and India in 2017, will be using the raised funding to expand in several markets and to further extend its product offerings.
