

Iberchem Group inaugurates production facility in Thailand

10 October 2018 | News

Spanish flavours and fragrances producer Iberchem Group has inaugurated a new production facility in Bangkok, Thailand, its fourth manufacturing site in Southeast Asia.

The new site will feature a creative centre, production plant, application and analytical labs and a commercial office.

Spanish flavours and fragrances producer Iberchem Group has inaugurated a new production facility in Bangkok, Thailand, its fourth manufacturing site in Southeast Asia.

The new site will feature a creative centre, production plant, application and analytical labs and a commercial office, and will produce flavours for the company's Scentium division and fragrances for its Iberchem brand.

According to Iberchem, the site has been opened to build upon the recent commercial success the company has experienced in the region, and the facilities at the site will allow it to shorten delivery times and effectively adapt its offering to clients throughout Southeast Asia.
